Re: Non Pharmaceutical Tender 2010/2011 – Addendum No. 3. – Request for Product Specifications

1. Question: Item # 90002270- Arterial – Venous Lines 8mm id c/w Transducer Protector- What machines these bloodlines are used on. We need more information for the specifications.

Answer: These lines are generic lines that are compatible with most modern dialysis machines. They are therefore not machine specific.

2. Question: Items # 90002442, 90002447, 90002443 and 90002445- We need to know more specifications for the dialyzers. We would like to know what dialyzers are currently in use.

Answer: The specifications contained on the data entry sheet for **item #90002442, #90002443, #90002445, and #90002447** are all the specifications provided by the nephrologists for these items (Disposable Dialyzers) attached.

The dialyzers in use are the Baxter brand.

Please be guided accordingly.

Yours faithfully

Alana Umraw
Company Secretary (Ag.)
